Nursery – Greenfields Primary School and Nursery- Whole School Curriculum Overview 2025-26						
Nursery	**Autumn 1**	**Autumn 2**	**Spring 1**	**Spring 2**	**Summer 1**	**Summer 2**
Building Relationships	When children start in Nursery, they begin by learning each other's names and getting to know their peers through different games and circle times. Then throughout the year, children will be taught how to make relationships with each other. Lots of this learning takes place in the classroom on a day-to-day basis when problems occur. These are talked through with adults and discussions happen to ensure learning is taking place. Circle times are frequently used to explore social situations and support children in problem solving and developing empathy for each other.					
Managing Self and Self-Regulation	Children will be taught about behaviour at school and understand the behaviour system and how this works. The opportunities to learn about managing feelings and behaviour will come up on a daily basis and they will be discussed with staff members and the children involved. Scenarios of social dilemmas will be explored during regular circle times. These will include conversations around making behaviour choices and learning about the consequences of those choices bad or good... They will explore how to find solutions to solve their problems and restore harm. This will enable them to learn about how to manage their feelings and behaviour.					
Listening, Attention and Understanding	Children's listening skills will progress throughout the year. The time they are expected to sit, and listen will be slowly extended throughout the year so that they are able to focus for longer as the year goes on. Children's understanding will be developed in day-to-day activities throughout the provision with adults intervening to help to develop and extend language and also in direct lessons where meanings of new words will be explored when new topics are being introduced.					
Speaking	Speaking is modelled by all adults in the setting and children are expected to use whole sentences and correct speech throughout the year. Vocab is extended through learning and opportunities to do this arise on a daily basis.					
Helicopter stories	Helicopter stories happen daily, and these are the chance for children to tell their own story and act this out with their peers. Developing their story language skills and their self-confidence alongside each other.
